P58 Oak bianco 

**Seat firmness options**

HsL-available in 3 different seat firmness options (without surcharge)

Please always specify! Recommendation: F2

F1-soft

F2-medium

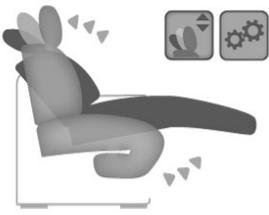

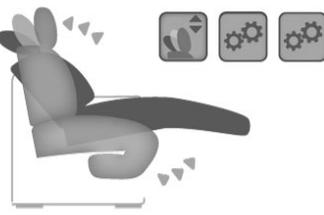

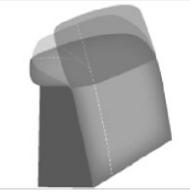

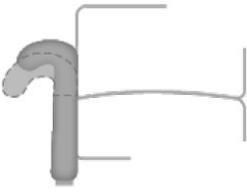

F3-firm

**Please state all relevant data for the model description on every order! Standing in front of the sofa, beginning on left (please include a sketch)**

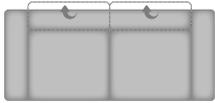

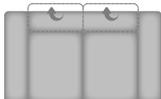

The seam processing or the need for additional / modified seams can differ in the comparison between the fabric / leather version. Wrinkling is a normal process. This does not constitute grounds for complaint, rather is determined by the model and is a typical property of the goods. All dimensions are approximate and may differ slightly. Versions of the models shown as well as sketches are non-binding and may be altered. We reserve the right to make technical changes to our products. The same applies to price errors. The decisive factor is the current status of the collection. The dimensions of the bed area (if there is a bedfunction in the type plan) are given in combination with a sideways bed function with armrest and tapered corner (SE) and change slightly in combination with other types.

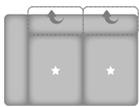

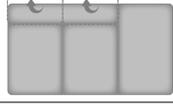

As wood is a natural product, possible colour differences or grain cannot be influenced and do thus not constitute grounds for any complaint.

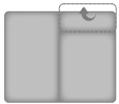

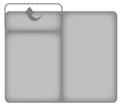

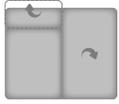

Notes for pacemaker wearers: All the electric motors integrated comply with DIN and VDE specifications. We recommend consulting your doctor to prevent any problems.

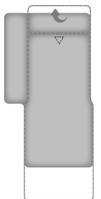

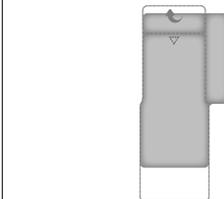

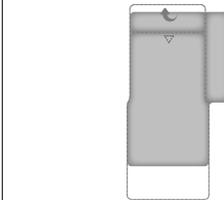

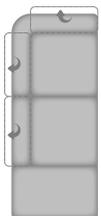

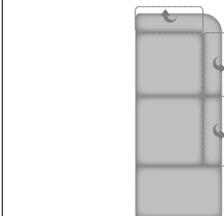

Description of functions	
<p><b>WallAway 1-motor (WA1) - with surcharge</b></p>  <p>max. load capacity 120kg</p> <p>WallAway function can be selected for each seat</p>  <p>2x touch button (in the seat, on the left side)</p> <p>Adjust the headrest to the desired position. When the <b>touch button</b> is operated, the leg rest rises to seat level and the seat moves several cm upwards and forwards to the reclining position; the back stays away from the wall. The back then moves further backwards to the lying position and the seat follows this movement forwards and upwards. The back remains away from the wall.</p> <p>Individual configuration of the individual seat functions possible in the models (see surcharges).</p>	<p><b>WallAway 2-motors (WA2) + motorized headrest adjustment - with surcharge</b></p>  <p>max. load capacity 120kg</p> <p>WallAway function can be selected for each seat</p> <p>Functionality like WallAway 1-motorised, but incl. motorized headrest adjustment, and only possible in combination with motorized Wall Away function in seat. Initiation by 2x additional touch button in seat.</p> <p>Individual configuration of the individual seat functions possible in the models (see surcharges).</p>
<p><b>Headrest adjustment (KV)</b></p>  <p>Including individually adjustable headrest with catch function</p>	<p><b>Bed armrest (LAL) - with surcharge</b></p>  <p>possible in all elements with armrest; except for motorised chaise</p>
<p><b>Battery for motorised WallAway function - with surcharge</b></p>  <p>for wireless function per seat, only in conjunction with WA1 and WA2 possible 2,2Ah Li-ion</p>	<p><b>Hand switch (HS) - with surcharge</b></p>  <p>for motorized operation, only possible in seats with armrests and in connection with motor functions</p>
